

ATTACHING A VEHICLE ON GEOTAB

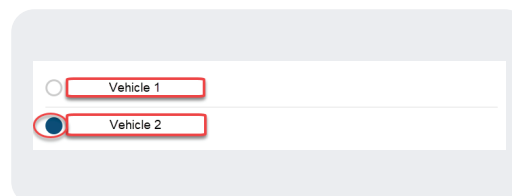

SCAN FOR
MORE INFO

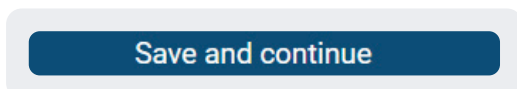

- 1** Type in your vehicle number or click on your vehicle number from the drop-down list.

- 2** Then **click on the circle** next to the vehicle you are assigned to.

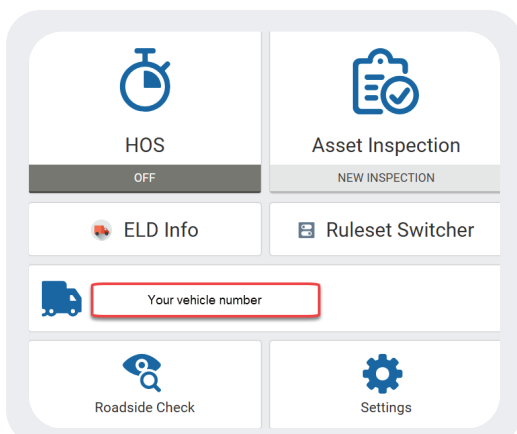

- 3** At the bottom of the page, **Click Save and Continue.**

- 4** After you have attached to your vehicle, you will be prompted to **complete an Asset Inspection.**

- 5** When on the Dashboard, your **vehicle number** will show next to the truck icon.

Remember

Always verify that your vehicle is attached, and it is the correct vehicle number.

The only time you should detach from the vehicle on your logs is when you are dropping it at a Terminal or Shop and will be away from it for a period of time.

If you are on a Slip Seat Account, make sure you are attaching and detaching to/from the vehicle before and after each shift.
